

HELPING YOU AND YOUR FAMILY SMILE FOR A LIFETIME

Traditional Values

Our team understand the importance of your smile and the confidence that comes from having a smile you are proud of. Keeping your teeth for a lifetime is no longer the pipe dream that it was in our grandparents' day; now with the right approach it really is possible to smile for a lifetime. Our smile makeover service enables you to start afresh and transform the health of your mouth and appearance of your smile.

Private dental care offers the very best way of achieving this as we are able to take the time to really understand what is important to you about your smile. We can offer all of the latest treatment options to you, including the very best materials, and take the time to do the job properly, so it lasts a long time and feels comfortable. So confident are we of this, that we guarantee everything we do. This means you can always be sure you are getting great care and value for money.

Modern Methods

There have been many breakthroughs in the last decade to help you achieve a smile for a lifetime - from dental implants that look and function like your natural teeth, and same day Cerec crowns, to new methods of straightening your teeth that are virtually invisible. Research has shown that regular hygiene visits are a key part of maintaining healthy teeth and gums - the foundation of smiling for a lifetime. We are proud to be able to offer all of these and more to you from our practices in Brixworth and Banbury.

Exceeding Expectations

We understand that you are our greatest asset and that you have trusted us with your health and appearance of your teeth. We take this responsibility seriously. All of our team keep up to date technically and all have training in customer service. We are members of the BDA Best Practice, awarded only to those practices that adopt a higher level of care than is required by the profession as the norm.

We are committed to excellence because that is what you deserve. This means we have patient co-ordinators who are qualified members of the team who can spend as much time as you want explaining options to you over a coffee, in privacy and at no cost.

Call us today to arrange to visit the practice and meet our team.

Emergency care

We are part of a **Private Dental Emergency Rota**. If you have a dental problem over the weekend please call 01604 880293 and follow the instructions. If you have a dental problem in the week please call us as early as possible so that we can see you the same day.

Missed appointments

Please give us as much notice as possible if you need to cancel an appointment. If it is less than 48 hours we reserve the right to charge the full cost of the appointment.

Payments

We accept Debit, Credit cards, Cash and Cheques. Finance options are available on request. We also have cost saving **membership plans**.

Confidentiality

Patient confidentiality is taken very seriously. Please ask our business manager if you would like a copy of our confidentiality policy.

Comments about our service

We endeavour to give you the best service we can and that you will be happy to recommend us to your family and friends. If we have let you down in any way please do call our business manager on 01604 880293 so that we can discuss your concerns.

HELPING YOU TO SMILE FOR A LIFETIME

We understand the importance of a good smile, and the confidence it gives you. At **Brixworth Dental Practice** we are dedicated to helping people achieve a smile they are proud of.

We offer an uncompromisingly high standard of dentistry, focusing on the needs and total satisfaction of each patient. We are here to listen, to understand and to work with you to achieve the **smile** that you desire.

Our aim is to provide you, and your family, with a positive experience and affordable dental care. To help with this we offer **interest-free finance** packages and our own affordable **dental health plans**.

Preventative care

When it comes to your teeth, prevention is better than cure. The best preventative step you can take is to have regular check-ups with our dentists and hygienists. Not only can we help you keep your gums and teeth clean and healthy, which should significantly reduce the amount of dental work you will ever need, but by keeping a close eye on the health of your mouth we can spot problems early, and start any treatment in good time.

A warm welcome - Our door is always open to patients both old and new. We encourage potential patients to come in to meet the team and have a look round the practice.

A calm environment - We strive to ensure the practice is a relaxing place to be, and our staff will do whatever they can to help make all patients' experiences as pleasant as possible. Patients are welcome to have music or television on during treatment if they wish.

A patient-focused approach - We call all new patients after their first visit to us or anyone who has had complex procedures to make sure they are okay and have no questions. We also regularly ask patients for their feedback to ensure our services are meeting their needs.

Appointments to suit you - We stay open until 7pm on a Thursday and also offer Saturday morning appointments to make it easier for those of you who work to come and see us.

FREE consultations over coffee - Free consultations with a nurse are on offer to all new patients to discuss any questions they may have, or for existing patients who would like to talk through their treatment plans over a cup of coffee or tea.

FREE private treatment for children - We believe in getting children into good dental habits as young as possible. We also know you want the very best for your children. Because of this, all children who have a parent registered with the practice will enjoy the benefits of being seen privately for all routine treatment, but there will be no charge for this service.

OUR TOP TEAM

Our lead dentist and Clinical Director Dr Tom Donnelly heads up a highly-trained and dedicated team who are proud to be able to help you and your family. For more details of the team members and a little of their background please visit our website www.brixworth-dental.co.uk.

WHAT WE OFFER

We offer a full range of dental, orthodontic and hygienist services using the latest materials and techniques to ensure your teeth stay healthy and your smile is sublime.

DENTAL - We provide fillings, crowns, veneers, bridges and tooth whitening. We also specialise in dental implants.

ORTHODONTIC - We offer a wide choice of braces for both adults and children from coloured or invisible braces to clear, removable aligners which use no metal or wires. We can also provide solutions that can work as quickly as six months.

HYGIENIST - Our hygienists can help you ensure that your mouth, gums and teeth are healthy and clean, and stay that way.

We also offer a smile design service and a range of facial aesthetics procedures.

For full details of all services please see our website www.brixworth-dental.co.uk.
