ACCIDENT AND EMERGENCY CARE

Members of our plans have peace of mind knowing that they have supplementary insurance included in their plan to help cover the cost for any emergency treatment that may be necessary whilst away from home either in the UK or abroad. Please refer to our insurance leaflet for full details.

WHAT HAPPENS IF I HAVE AN EMERGENCY?

If you have an unexpected emergency, such as an accident or toothache, then in normal circumstances you should ring us on 01604 880293. However if you cannot access your dentist's own emergency arrangements, and you need help in obtaining emergency dental treatment either in the UK or overseas, you may see a dentist of your choice or you may call the dental helpline on +44 (0) 1206 788816.

What's more, if you are overseas when you need help, the dental helpline advisor will endeavour to find an English speaking dentist to assist you.

HOW DO I CLAIM UNDER THE INSURANCE?

If you are away from home and have to see a dentist in an emergency, you should receive the **temporary** treatment necessary to render you in a comfortable condition.

On your return home you must complete a claim form and this must be countersigned by the treating dentist. The form will need to be sent to the insurance team at Practice Plan Direct Limited within 30 days of the incident. Your costs will be reimbursed up to the limits shown in the policy.

We will also help you to fill in a claim form should you need treatment for a dental injury. If the treatment is likely to cost more than £250 we will provide a costed treatment plan as prior authorisation will be required from the insurer.

An assessment by an independent dentist may be requested before this permanent treatment is authorised.
